

## STRANGE ENCOUNTERS OF A LOCAL KIND

Passed an older chap at the Sea Scout Hall the other day (he'd just had a swim and was dressed in a full length bright blue towelling onesie). *"You look like a Ninja Warrior - you just need the wand!"* I said. His response: *"Yeh - I'm trying to encourage my wife to wear one at the same time and we can freak out the grandkids!!"* Granddad humour!

## UGLYS NEIGHBOURHOOD WALKABOUT

I passed a lady in Takuranga Rd walking 2 small dogs - one a brunette and one a blond, I cheekily quipped, *"If you had a redhead, you'd have Charlies Angels!!"* She replied: *"What I actually need is a Charlie!"*

**Q.** What do you do if you have a strawberry growing out of your ear?  
**A.** Put some cream on it.

## FRUITFUL SUGGESTIONS

We are always looking for excess fruit and produce from your gardens and unwanted or expired pantry goods to help stock the Pantry. All donations are gratefully received!

If you haven't any of these or even if you have, you can still contribute by donating funds to help us grow and do more for the community. Plus, we are always looking for volunteers!

You can drop cash into the **KOHA BOX** at the Pantry:  
25 Clarence St. or just donate online: Account:  
**Uglys**; Number: **060294 0978281 00**.

An apple pie in Jamaica costs **\$2** and in Barbados it's **\$1.90**. Those are the pie rates of the Caribbean.

## UGLYS COMMUNITY PANTRY TRIVIA

*"They came ; they saw ; they got Uglys"*

*"To get Uglys or not to get Uglys, THAT is the question"*

*"Life is a jar of Uglys. You never know what you're gonna get but you know its real and it's gonna taste great !!"*

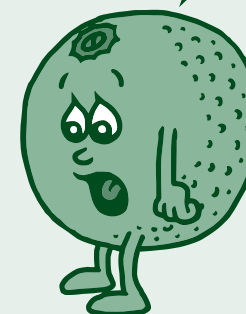

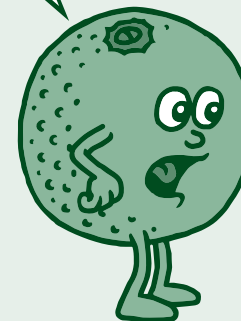

The Pantry exists to provide much needed help for the community in the way of cheap foodstuffs and produce. We survive on the generosity of our friends and neighbours to keep the service running with their kind help and donations.

# Observer

How come you got fired from the juice factory?

I couldn't concentrate.

## IT'S IN SEASON FOR A REASON

Lemons are around **\$16**kg and not only that, they're shipped all the way from California. They don't taste great because they're picked early, have gone through various processes to preserve them and are possibly weeks or even months old.

**WTF.** We have millions of lemon trees in NZ. Ok, I know the citrus season is June-Oct generally and we need lemons all year round, but surely we can come up with a much better plan than importing them from all the way across the Pacific. In times past (before fridges even!!) people would salt them, freeze them, to make them last as long as possible.

Or you could squeeze the juice and make lemon ice cubes to use all year round.

**Q.** Why did the berry read the Dried Fruit News?  
**A.** He wanted to keep up with currant affairs!

**UGLY'S COMMUNITY PANTRY**
